Ozaki, President-The Merchants Antagonize the Tough Element. Reduction in Freight Rates and a General Increase in Trade.

"No!" said a Japanese merchant permanently. vesterday, "the Commercial Union is not a political organization, nor do its members bother in any way

OZAKI,

Our colony here is a large one and is growing. The union is for the protection of the Japanese merchants who belong to it and for the advancement of the interests of the ican ideas, you may say, and one with considerable executive ability. It was mainly through him that the Japanese dealers here were ensummer; it was he who carried out the plans to charter a vessel to bring goods from Japan when it was impracticable for regular steamers to do so on account of the strict quarantine regulations.

"Yes, the union is composed entirely of Japanese who are engaged in legitimate business pursuits; the hoodlum element, which is composed of gamblers and fellows who live upon the earnings of fallen women, are not admitted to membership. On the contrary we would lend our assistance to the Government of Hawaii in excluding that class of Japanese from the islands. Just consider the position The zephyrs that wanton and play of the reputable Japanese! These men demand a certain portion of the earnings of the depraved women and they get it. They are as regular in collecting their claims as your tax collectors. Then they have a system of blackmail, levy or whatever you may call it, upon nectar, more sweet than Talernian us whenever they see fit, and if we do not contribute they make it unpleasant. way of the Japanese is the freight rate from Yokohama to Honolulu. We anticipate a large influx of Japanese laborers during the next year and, with those who are now here the supply will probably be larger than the demand, and laborers' wages will be reduced to a figure that will prohibit their buying the goods we handle to the extent they otherwise would. To meet the reduction in the

wages we must economize in some way and probably the only way will be in freights. A few years ago, when I came here the rate on Japanese provisions was fourteen yen per ton. The shipments by the Coptic a few days ago was 11.40 per ton, a very satisfactory figure but, unfortunately, not one that we can depend upon having permanently. The Commercial Union, of which I am president, will endeavor to make permanent arrangements with the steamship company for a rate, failing in this with the internal affairs of Hawaii. we will communicate with our them to charter a steamer.

There are very few of the Japanese dealers who are not members of the union which, by the way, while it may be considered a protective organization, it is not such in the sense that a member whose business methods were questionable would receive either support or endorsement by the union. We have a plan now whereby each member contributes a certain portion, say two dollars on each ton of merchandise imported, to an emergency fund. Should any member violate any of his obligations to the union, he forfeits whatever sum he may have paid in. But if he should, on the other hand, decide to retire from business and return to Japan, after settling his F. A. SCH LEFER, IT LLIAN CONSUL affairs honorably, his credits are paid over to him.

This emergency fund is not large, but it is growing. Echoes of the Races. "My horse can beat yours"-

such is the cry that has led to the latest match race between the farfamed Billy C and the modest Confederate, to take place Saturday afternoon. The proposed race is the outcome of the mile race at Kapiolani park last Friday in which both of the above horses figured. Arrangements were made Saturday night for \$300 a side in a half mile and repeat race. Billy Cornwell is confident that his favorite can put Confederate in the shade and Charles David thinks his chances of winning are just as good as those of his opponent. At all events the sports believe the race will be a very close one.

There is also much talk of matching Judah against "290" the outcome of the proposition will be known in a day or two.

Improvement in Tennis.

There have been some very exciting times among the members of the Pacific Tennis Club for several weeks past, the result of the division of players into classes. Any one in a lower class may challenge any one in the class above him to play a match game. Should he win he advances into the same class with his opponent. A player may challenge any one in his own class, giving him 15 on every game. Should he win, the defeated player must go into the next class below and await a chance to climb again. This plan has advanced the standard of tennis among the members of the P. T. C. At present the standing of the members is as fol-

Japanese Activity. Arrangements are being made

by the leaders in the Japanese colony for the presentation to the Legislature next month of several petitions for the passage of bills which will materially aid them in the transaction of business on the islands. One of these relates to a revision of the tariff on goods manufactured in Japan and imported to this country, articles which are exclusively a product of Japan and which do not compete with goods of American manufacture.

Another matter to be brought bedenization to several Japanese merchants. The Thanksgiving Day in Honolulu

Regard for Colonel McLean's Reform

The Hawaiian Islands have literally gone through fire and water in the past. Why not again? Made up of coral reefs and lava, they inspire a feeling of insecurity I never before experienced. Of course continents owe their being to equally violent causes, but their vastness gives them an appearance of stability that dots on the map can never attain. Residents, however, go about with continental assurance, while I mediate tying a life preserver to my bedpost and hanging a canoe outside of my window. Familiarity stifles imagi-

The United States is not alone today in celebrating a national thanks-giving. With the thermometer at 76 degrees Fabrenheit in the shade, with mountains clad in luxuriant verdure, with flowers blooming in every garden, I am undergoing more thanks giving than I ever dreamed of in New England, and I realize more and more the influence of our country. Captain Morse, an old sea captain, who has lately lectured on Hawaii in San Francisco, maintains that these is-lands were originally peopled by North American Indians, and is inclined to believe that they formed part of our continent until volcanic isturbance severed the connection. Who so wise as to deny this hypothesis? Do not the Aleutian Islands ex tend to the very horder of Asia? Can any one doubt that they once belonged to the eastern promontory of Alaska? Get out your atlas and you'll discover that the Hawaiian group is 1,000 miles nearer our coast than the last of the Aleutian chain. In point of sympathy and commerce the latter are in-

Colonel McLean assumed command of the army last May. It consisted at that time of two companies of sixty men each and of four companies of volunteers. Their condition was far from satisfactory. Eighteen sentries guarded the palace, now used as a government building, and twelve pieces of artillery stood in the palace grounds, with loaded muzzles pointed toward the four streets surrounding it.

Colonel McLean's first reform was to reduce the sentinels to four. The timid were sure something would hap pen, and nothing has happened since. His next reform was to take off those tweive guns, and thus remove a source of irritation to royalists and to nervous omen and children; who felt that they were being perpetually menaced Critics assured Colonel McLean that he was inviting revolution, but, as he wished to silence the slar cast on the the wind blows. The Hotel Banquet.

The festivities at Independence Park pavilion were complete in themselves, but the day would not have been properly terminated without the splendid dinner at the Hawalian Hotel. The large hall was most artistically

decorated, the work being done by the Chinese waiters and the hotel gardener, under the supervision of Manager Lucas. Potted ferns and palms were set about at different points in the ball. Palm leaves prettily arched over the windows and doors made a belt of green around the whole room. The chaudeliers and open woodwork were decorated with sprays of vines and red flowers prettily entwined. THE suggestion by the higher class Japanese that the Government make use of the Dangerous Persons Act in ridding the country of the idlers supported by Japanese prostitutes is worthy of attention This is an evil which has increased during the past two years, but, with the co-operation of those who offer a possible solution of the problem, much good might be accomplished.

WHILE Rev. Mr. Birnie, in his excellent sermon of yesterday morning, was drawing illustrations of the childish mannerisms of those who are old enough to know better, he might well have drawn attention to the people of Honolulu who have night after night furnished traveling troubadours with good audiences, but let Saturday night lectures replete with interesting. and useful information, go by the board. It is certainly an evidence that all the people of this city have not put away childish things when they crowd the light entertainments, but give little more than a baker's dozen to the lecturer. The traveling artist gives a pleasant diversion and is deserving of patronage. The lecturer works in a different way, but he is equally

To-DAY our German fellow citizens celebrate the twenty-fifth anniversary of the re-establishment of the German Empire. Founded by Charlemagne in A. D. 800, it continued till 1804, running in the House of Hapsburg from 1437 to that date it had a glorious record. But none of its historical events were more dramatic than that great scene in the hall of the Marshals' generals, by the pick of the elite of his nation, fresh from the battle field, with the unwithered laurel on his brow, was proclaimed Emperor of a united German people. He was a great man, he had great men around him, and our fellow $-\mathbf{Hoch}$!

IT is somewhat out of the ordinary run of events, to say the least, for members of the diplomatic corps to take issue with a government on the observation of a holiday. So far as we are aware, the question of fixing dates and the of the island bring the people to manner of observing national holi-their terms. The work of devastadays rests entirely with the Government, and unless there ared features in the observances which tend to bring about international complications we know of no reason why foreign representatives should not fall into line, act their part in the function and ask no questions. The 17th of January has been declared a public holiday in the Republic of Hawaii, and it becomes a question of more or less moment tinue destroying all the cane fields whether an objection to take part of Cuba whether grinding is atin an official function, because this or that country did not see fit to recognize the Provisional Government, might not be considered in the line of a breach of diplomatic courtesy. THE war cloud that has settled over England and Germany presents without doubt, the most serious aspect of any disturbance that has arisen in the world's political the Venezuelan affair however, it is safe to say that while war is a possibility, it is by no means probable. The land grabbing advances of England have stirred Germany to take action which has given rise to a feeling among Britons that the the Americans, 'every mother's son is ready, to fight rather than see their country put to shame by any opponent. On the other hand the solid thinking men of all nations realize the honor of a European war, also the fact that upon the nation taking the initiative in an armed conflict falls the responsibility of setting in motion a general war throughout the Eastern hemisphere. Russia is simply holding back to see what is to be the outcome, ready at any time to make an advance in Asia and gain her much courted territory. This would undoubtedly involve Japan, posto predict that France could maintain strict neutrality. One of the remarkable features in the recent war talk that is far from reassuring, is the readiness shown by many veterans who know all the horrors of armed strife, to again go to the field and settle problems on which the diplomats have failed. Should the unexpected happen and the young Emperor of Germany at Versailles when the conquering and the British premier stand King of Prussia, surrounded by the firm in their desire to try the national mettle, the declaration of war which must follow would be the darkest blot that has ever disgraced modern civilization.

AN EXAMPLE WORTH NOTING.

There is food for a vast amount

of serious study for the Anglo-Saxon residents of this country in the quiet, but aggressive, work of the Japanese Commercial Union, of which a description of the methods and objects to be attained is given in another column. In this, as in nearly every movement to which the Japanese put their hands, we find a unity of purpose and loyalty to the mother country which is characteristic of the nation and forebodes success. This means competition, sharp competition, that will not decrease in strength as the years go by. The question at once arises, what is being done to meet this competition? It is a straight business proposition which must be met sooner or later. From present appearances it would seem that many of our residents are calmly viewing the situation and with eyes fairly well opened are trusting to previous good fortune for the future. One of the arguments now being used by many Americans in California against the white residents in this country, is, that we are not making an effort to return the benefits which are derived by reciprocal relations with the United States, that we going to markets outside United States and allowing Japan to gain the ascendency: These accusations are in a measure exaggerated, and comparative tables show that our imports from San Francisco are on the increase. But at the same time if we showed the same patriotic commercial loyalty to the country that has been our benefactor as our Japanese brethren, there could be no cause for complaint from that source. It is a problem that is growing in importance and it is better to meet it face to face before it becomes too bulky to handle. The Japanese by their united action are setting a good example.

In the second place the grade of his work careful consideration of what is the falls off, and he is liable to err in his judgment. In the third place he dies suddenly." These remarks of the famous after dinner speaker we consider not only decided applicable in the sense in which they are intended, but in the way of a great many of the manufacturers that are constantly placing inferior goods on the market and claiming them as superior to the product of older and better known houses. This is especially true of cutlery. There are houses who place this class of goods on the market that are made up for show and sale only, but whose wear is warranted only until they have been once scoured. This is not the case with the goods of well known and established houses whose reputation depends upon the wear of goods.

They pride themselves on what they make being made of the best material that money and experience can turn out. The John Russell Cutlery Company have a reputation that is envied by many and equalled by few. Ex S. S. A Good Contract. H. P. Walton, manager of the Peerless Preserving Paint Company of

this city, has recently returned from Ewa, where he has had a force of men painting the roofs on the various buildings on the plantation. Mr. Walton states that over one year ago Mr. Lowrie, manager of the Ewa plantation, was induced to have the roofs over the mills painted with the Peerless, and on examination a short time ago he closed a deal with Messra. Ables and Walton to paint all the remaining roofs on the plantation, which consisted of about 120 dwelling house roofs; the roofs on the three pumping plants, church, stables, etc., together with the four large smokestacks, at the pumping plants. Mr. Walton also states that in filling this contract that the Peerless company used 2300 gallons of palut on the various roofs.

The smoke-stacks are from 80 to 110 feet in height and the largest being 14 feet in diameter, the company have a special paint they use for painting smoke-stacks. An article which they guarantee will withstand the steady heat to which they are subjected. The Peerless Paint Company have a good stock of paint on hand and expect 5000 callens of material on the pect 5000 galions of material on the next Australia, which they will mix ready for use as soon as it arrives. All their paint is mixed here in Honolulu.

Exit Japanese and Chinamen. The Japanese and Chinese im-

THE STATE OF HAWAIL

Joint Resolution Offered in Congress to Annex the Islands.

PEOPLE TO VOTE ON QUESTION.

Final Action On or Before January, 1898-Terms Under Which the Country is to be Transferred-To Have One Congress Representative.

WASHINGTON, D C., Jan. 8.-The following joint resolution relating to the Hawaiian Islands, offered by Representative Spaulding (R.) of Michigan, was read in the House today and referred to the Committee on Foreign

"That Congress doth consent that the territory properly included with it and rightfully belonging to the Government of Hawaii, and commonly known as the Sandwich Islands, may be erected into a new State, to be called the State of Hawaii, with a republican form of government to be adopted by the people of said Government of Hawaii, by deputies in convention assembled, with the consent of the existing Government, in order that the same may be admitted as one of the States of this union.

"Further, that the foregoing consent of Congress is given upon the following conditions and with the following guarantees, to-wit:

1. Said State to be formed subject to the adjustment by this Government of all questions of boundary or jurisdiction that may arise with other governments or former governments of Ha-waii; and the constitution thereof, with the proper evidence of its adoption by the people of the Government of Hawaii, shall be transmitted to the President of the United States, to be laid before Congress for its final action on or before January 1, 1898.

"2. Said State, when admitted into the Union, after ceding to the United States all public property and means belonging to the Government of Ha-waii, shall retain all public funds of every kind which may belong to or be due said Governments, and also all vacant and unpopulated lands lying, within its limits, to be applied to the payments of the debts and liabilities of said Government of Hawaii, the residue of said lands to be disposed of as said State may direct; but in no case are said debts and liabilities to become a charge upon the United States.

Further, that if the President of the United States shall in his judgment deem it most advisable instead of pro-ceeding to submit the foregoing reso-lution to the Government of Hawaii as an overture on the part of the United States for admission, to negotiate with that Government, then, resolved, that a State to be formed out of the present Government of Hawaii, with one representative in Congress, shall be admitted into the Union by virtue of this act as soon as the terms and conditions of such admission shall be agreed upon by the Governments of Hawaii and the United States, and that \$100,000 be appropriated to defray the expenses of missions and negotiations either by treaty or articles as the President may

POLICY OF DOLE.

United States.

CHICAGO, Dec. 29.-In the Times-Herald of tomorrow will be printed an interview with President Sanford B. Dole of Hawaii, had by Miss Kate Field. The interview is elaborate, filling several columns and touching for the period of 120 consecutive days closely on the Hawaiian policy on international questions. Although it does not appear in Miss Field's letter the talk was had in the presence of Mr. Dole's Cabinet, the members of which subscribed to their chief's opin ions unreservedly. Miss Field called his attention to the fact that his Government had been said to be characterized by an insane desire to perpetuate

itself in office. Mr. Dole said: "The fact that the Government is working for annexation to the United States is a good denial of that charge. Annexation may deprive us, or many of us, of office. In the higher offices are men to whom it means personal sacrifice and business loss to discharge their duties. It is simply a slander to say this desire for annexation is simply a pretense. We are working in good faith, and I believe the people appreciate the fact. As to the form of annexation that would best meet our requirements, it is difficult to say. A territorial form of government unmodified from the form obtaining in the United States "You'll get the cable," said he; Territories would scarcely be suitable "there is no question about that. Probably the best course would be to Bince I was here I have been in of government unmodified from the gradually develop from our present system, the Federal authorities, of course, having from the beginning jurisdiction over custom houses, postoffices and Federal courts. Our own Government should not be limited by the United States the same as territory. A new system would have to be invented to suit our conditions. Much the same as is the practice of England in establishing a new colony. There is no system Each new colony is organized as the necessity of the case demands."

In reply to a statement by Miss Field that she had been told if the United States did not anney the Hawaiian Islands they would be offered to Eng-land Mr Dole said "Our sole policy is approviding to the Visited Property in the Property is a property to the Visited Property in the Property is a property in the Property in the Property in the Property is a property in the Property in the Property in the Property is a property in the Property i is annexation to the United States." SENATOR HALE'S BILL.

Puts the Pacific Cable Project Before the United States Senate.

WASHINGTON, Jan. 3.-Among the important bills introduced in the Senate today was one by Hale, authorizing the Postmaster-General to contract with the Pacific Cable Company for the construction of a telegraphic cable between San Francisco and Honolulu, Hawaii. The United States is to pay the company annually a sum equal to 4 per cent. of the amount expended each year by the company. The contract is to continue for twenty years, and the line is to be completed by July 1, 1897. It is also stipulated that the Govern ment may come into the ownership of the proposed line by paying the cost price of it with 5 per cent. added.

PROVISIONS OF CABLE BILL. The Company Wants Four Per Cent. Guarantee.

WASHINGTON, Jan. 8—Representative Barham introduced Senator Hale's bill to facilitate the construction and maintenance of a telegraphic cable in the Pacific ocean for the use of the Government in its foreign intercourse. The bill provides that the Postmaster-General be authorized to contract with the Pacific Cable Company, a corporation of New Jersey, for the transmission by electrical means between San Francisco and Honolulu of messages on business of the United States during the period of twenty years from July, 1897, and to stipulate in the agreement that the amount paid for such service by the United States shall be computed as follows:

First-The amount actually earned during that year by the cable com-gany in maintaining and operating the cable, there shall be added a sum sufficient to pay four per cent, on the sum actually expended in the con-struction of the cable.

Second—From such a sum to be computed and paid each year there shall be deducted each year \$40,000. Third—The remainder shall be paid

to the cable company in four equal quarterly payments, provided the amount shall not in any one year ex-ceed the sum agreed upon until the tolls on messages transmitted for us computed at rates charged the public for like service would be in excess of such sum, in which case toles o in excess shall be computed at one half current rates and a deduction of \$40.-000, hereinbefore provided for, shall for that year be diminished to the Tells Kate Field it is Annexation to extent of such excess. The company must have the cable in good working order by July 1, 1897, and capable of transmitting not less than fifteen words per minute. Provision is made for reductions in case the cable bewhen the Postmaster-General may a his option cancel the contract.

> COOTE ON THE CABLE. Believes Congress Will Give the Money.

> Sir Audley Coote of Australia, who came to this country a couple of terday and is at the Grand, says the

Call of January 1st. He has attended the sessions of Congress, become acquainted with leading American statesmen and talked the cable as best he could. He says everything is working out all right. According to Sir Audley's idea it is only a matter of a little time. He says that everywhere he went he received

nothing but encouragement. The beauty of it was that it was backed up in such a way that there could be no

men of large purposes,
"Everywhere I went I found the greatest encouragement. The propoeltion is now that American capital shall control the cable.

"There is no trouble about the necessary money. I cannot now go into all the details, but I can say this much, that everything is in as satisfactory a state as could be desired.

"I shall be here for about ten days, I came on with Mrs Coote, who is visiting some friends, and I think you had better my my trip is independent

Senator Perkins will introduce a resolution favoring a specific duty on raw sugar. The people of the West are making strenuous efforts to have the duty on this product raised. The movement will probably receive favorable con-sideration in the House, but will likely meet with a hard fight in the Senate where the Sugar Trust still bas a strong hold.

DAVITT SCORES ENGLAND. Says America Should Admit Hawaiian Republic as a State.

NEW YORK, Jan. 2.-Michael Davitt was seen by a reporter for the United Press in this city this morning, He is on his way home from Ireland, after a nine months' tour in the Australian colonies. In reply to a question about the English attack on the Transvaal

republic the Irish member said: "The credit for the countermanding of the invasion of the Transvaal is not due to Chamberlain and Salisbury in my humble opinion, but to Cleveland and Olney. The manly and menacing attitude which Uncle Sam took upon the Venezuelan question has compelled England to condemn a freebooting expedition which would otherwise have had the political blessing of that preeminent land-grabbing nation.

"America ought, in my judgment, to do three things on the first available opportunity, that is admit the Republic of Hawaii into the family of United States communities; recognize the Cuban patriots, who are, I hope, whipping the Spaniards, and thirdly, instruct her admirals in the Mediterranean to fling a shell or two into the Sultan's palace at Constantinople the next time a single Christian of any nation is mur-dered or outraged by the unspeakable

"This act would tell the cowardly Christian monarchies of Europe that there is at least one great nation of humanity which has no dread of the infamous Ottoman empire. Action of this kind would plant the Republic of the United States in the front rank of powers.

Mr. Davitt leaves for Ireland next

Hawaiian Band Floated Again and Given Food.

MASSILLON, (Ohio), Dec. 29.— The Royal Hawaiian band, which has been stranded here, left the city yes terday. The musicians were almost starved when they arrived, but were provided for by the citizens.

A dispatch was received here from H. M. Gillig at Alabany, N. Y., say-ing that he wished to help them and requesting the Mayor to telegraph him at Chicago. The musicians were too proud to reveal their distress, but Director Libornio was sent on to Chicago to consult with Mr. Gillg. who married Mrs. Porter Ashe of San Francisco, who was formerly Miss Crocker, daughter of the millionaire, and is very wealthy.

Kamehameha Notes.

Great Britain and Germany Have Serious Differences.

CAUSED BY TRANSVAAL STRIFE.

Emperor William Not Favorable to British Suzerainty-Dr. Jamieson's Filibusters Defeated and President Krueger Wants an Independency.

The war cloud that has been hanging over Europe has assumed a decidedly serious aspect in consequence of differences between Great Britain and Germany regarding the situation in the South African Republic.

Dispatches to London under date of December 28th brought news of the threatened crisis between the Nittanders and the government on account of the Europeans being refused leader of the British South African Company, lead a force of some 800 men across the Transvaal trontier to attack Johannesberg. Their advance was checked by the prompt action of President Kreuger's forces. A sharp battle took place, in which Jamleson lost a large number of men and was himself taken prisoner.

Throughout Europe the action of Dr. Jameson was put down as having been a part of a plot laid by England to obtain full possession of the Trans vaal, whereupon Secretary of State for the Colonies, Mr. Chamberlain, issued the following statement: "Having learned that Dr. Jamiesou has entered the Boer country, I have since been continuously engaged in au endeavor to avert the consequences of his extraordinary action. Sir Hercules Robinson has, by proclamation, publicly repudiated Jamieson's act, and has enjoined the British subjects to obey the law and remain quiet. Jamieson and his officers have also been ordered to retire immediately. It is hoped that a collision may be averted, but Jamieson cut the wires as he advanced. The British agent at Johannesberg is moving forward to meet Dr. Jamieson and to order him, in the Queen's name, to retire. I have called upon the chartered com-pany to repudiate Mr. Jamieson's procedure, of which the company says it is entirely ignorant. Cecil Rhodes, Premier of Cape Colony, has stated that Jamieson acted without his authority. As soon as he heard that he contemplated entering the Transvasi he endeavored to stop him, but found that the wires were cut." The feature in the affair which in

censed Great Britain was the following congratulations sent President Kreuger by Emperor William of Germany: "I express my sincere con gratulations that with your people, and without appealing to the help of friendly powers, you have succeeded by your own energetic action against the armed bands which invaded your peace and a safeguard in defense of the country against attacks from the ontside." This is regarded as a direct affront to Great Britain which has exercised suzerainty over Transvaal under the convention of 1884. Or January 4th the resignation of Cecil Rhodes, Premier of Cape Colony, and the supposed nead of the revolutionary movement was confirmed. Su Gordon bprigg is named as his suc-

This action however had little effect upon the war spirit that has apparently become thoroughly aroused in Great Britain. Preparations for the commission of a flying squadron consisting of the best battleships Great Britain has at her command have been issued and Rear Admiral Rawson has been ordered to proceed to vasi affair in the German Reichstag was greeted with cheers from the members and throughout both coun tries the feeling seems to be that the opponent must "back down or fight"

VENEZUELAN COMMISSION.

Five Members Appointed by President Cleveland-Begun Work.

NEW YORK, Jan. 4.—The President has announced the composition of the Venezuelan Boundary Commission, which will consist of five members The following were chosen. David J Brewer of Kansas, Justice of the United States Supreme Court; Richard H Alvey of Maryland, Chief Justice of the Court of Appeals of the District of Columbia, Andrew D White of New York, Frederick R. Coudert of New York, and Daniel C. Gilman of Maryland

At the first meeting of the Commissioners, Justice Brewer was elected President Commissioner Gilman moved that an inquiry be made as to the best map showing the physical characteristics of the country in question, and whether it could be reproduced in convenient form for the use of the Commission This was adopted and the committee authorized Commissioner Gilman to make such an inquiry.

This concluded all business for the present, and the Commission adjourned to meet on January 11th, unless the President of the Commission chose to select another date, in the diplomatic room of the Department of

EVENTS KEENLY CONTESTED.

Judah the Queen of Hawaiian bre-Horses-Fred Mac's Record Beaten by the Mare-Quinn's "290" Something of a Wonder-Billy C Wins.

Between 500 and 600 people gathered at the park track yesterday to witness the races. The afternoon was sweltering hot, but no rain feli. though quite a number of showers were in evidence in town. The track was in splendid condition, except at the quarter and back stretch. The day was greatly enjoyed by all, the events interesting, a marked feature being no long waits between the con-

Promptly at 1 p. m. the program begun with a mile handicap bicycle race, in which there were thirteen starters. The race was tame until near the finish, being between George Angus and Ruby Dexter. Angus won in 2:29, with Dexter only a few inches behind. The winner spurted near the wiré and took the race. Dexter was not at his best, only recently Andrew D. White is a Republican in recovered from a severe illness and had only a week's practice. T. V. King fell coming into the stretch.

The second event, ha!f mile handicap for jeveniles, was won easily by Fred Iaukea in 1:21½.

The five mile bicycle race was distinctly between Heary Giles, George Angus and D. G. Sylvester, though there were seven starters. After the first lap two fell out, leaving Giles, Angus, Sylvester, Dexter and Johnson. Giles led in every lap and won easily in 14:241, with Angus, Sylvester, Dexter and Johnson in like order. T. V. King entered a protest, claiming that Glies souled him by cutting Dexter and Johnson in like order. across the course. The protest was not allowed.

While the bleycle races were quite interesting, the big crowd waited patiently for the beginning of the hor-e races

In the running half-mile and repeat Billy C. was an easy winner. It was generally conceded he had the race before the start. Time, first heat, 531. Rainbow second. Billy C. took the second heat without much difficulty.

The three-minute class, srotting and pacing, was the race of the meeting. There were four starters—Judah and Salvator having previously met There were four starters-Judah in a matched contest. In this event Judan showed her superiority over Salvator and the other entries so decidedly as to give her the race without exhibiting the least distress. When driven in the match race Judah could not be controlled, and broke several times. Since that time the mare has been worked with hobbles and won the first heat very easily | made by Maciarlabe's Fred Mac two out a single skip or break. Salvator was clearly outmatched and could not have won the race under any circumstances. Up to a few weeks ago Judah was used as a hack horse by her

Interest in the one mile novelty running race centered in Billy C. and Confederate. Both horses had many admirers and backers. Billy C. won in 1:52, Confederate a very close second.

The meeting was a good one and thoroughly enjoyed by the large crowd present. The absence of music was noted and unfavorably comment-ed upon. Manager David tried to secure the Portuguese band, but could were appreciated.

Bill Introduced in the United States Senate. R M S S Alameda, Van Oterendorp, for The Amendment to the Tariff Bill Of-

fered by Senator Perkins of . California.

WASHINGTON (D. C.), Jan. 3—
Senator Perkins is in receipt of a lengthy memorial from California, Utah, Nebraska and Kaosas sugar growers in favor of additional duty on for an interval of several months, a breach of the conditions to said mortgage contained and interest when dne. Notice is also hereby given that all and singular the lands, tenements and hereditaments in said mortgage contained and described will be ed no receipts for money received for an interval of several months, The property in said mortgage is thus de-

In the Senate today he urged the adoption of a resolution declaring it to be the sense of that body that among the amendments to the tariff bill to be reported by the finance committee there should be one for, the better protection of domestic singar producers.

Berry of Arkansas objected that the passage of this resolution might commit the Senate in favor of a duty on sugar. The resolution was finally adopted, not as an expression of the Senate, but as a mere suggestion tothe finance committee.

Senator Perkins will propose to the committee and to the Senate that the following provisions be adopted:

"That from and after the passage of this act notil August 1, 1898, there shall be levied, collected and paid on all sugars, tank bottoms, syrups of cane juice or of beet juice, melada, concentrated melads, concrete and concentrated melasses, testing by the polariscope not above 80 deg., T.10 cents per pounds and for every degree and fraction of degree above 80 deg., as shown by polariscope not above 90, 200.1 cents per pound additional.

"All sugars testing by polariscope not less than 90 but less than 97 deg. by polariscope shall pay duty of one and thirty-hundredths of one cent per pound, and an addition thereto threebundredths of one gent on each degree or fraction thereof, as shown by polar-Iscope above 90 deg.

"All sugars testing 97 deg and above by polarispope shall pay duty of one and fifty-one hundredths of one cent per pound, and in addition thereto four hundredths of one cent per

CLEANING SHIPS' BOTTOMS. Saving the Time and Expense of Docking Vessels.

William Martin, an inventor of New York city, is perfecting a machine to clean the bottoms of ships while they are affect, and thus save the enormous expense and loss of time spent in drydocking vessels. At present Mr. Martin is building a model of his machine, which is to be exhibited in regular operation on a model steamship in New York. The model is constructed of iron, brass and wood, but in the regular working machine all of the machine is to be of alluminium. The value of this invention to, naval and merchant vessels is easily understood. the bottoms of his ships is enormous. Mr. Martin's machines have already received the approbation of naval offi
